

FORTUNATO

MEET OUR TILES TABLES

Casa Fortunato has a natural DNA of design and creativity, which is the foundation of our work. We believe the space you inhabit should speak in a dialogue that's personal to you. Having built up a diverse portfolio, we offer you a comprehensive design process to create a space you are seeking to own or manage.

Objects made beautifully, sculptures that draw the imagination and paintings that bring meaning are the natural touchstones for Casa Fortunato's studio and something we like to foster supporting young talents as well as those legacy heroes.

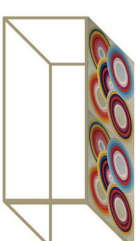

Decorative pieces, ceramics, jewellery and artworks are conversation-worthy and have a legacy of past and future. Items that will be collectables, just look wonderful and add that Wunderkammer aspect to the home, the hotel and to the creative office space.
